CAREER HIGHLIGHTS

- Strong foundation in HTML, CSS, JavaScript, React, and Tailwind CSS.
- Completed personal projects including e-commerce UI, utility billing platform, and interactive UIs.
- Passionate about performance, clean design, and continuous learning.

PROJECTS

RoomHatch RoomHatch
Full-stack MERN platform to find roommates and available rooms, with React/Tailwind frontend, Firebase authentication, and Node.js/Express backend connected to MongoDB.

PH Law BD PH Law BD
Legal service app built with React, Tailwind CSS, and React Router.

- Implemented routing, API-based data loading, and reusable components.
- Live at: ph-law-bd.netlify.app

Paybills BD Paybills BD
React-based utility bill app using local storage for balance and history.

- Designed responsive UI, category filters, and bill cards.
- Hosted at: pay-billsbd.web.app

EnglishJanala
Vanilla JavaScript and Tailwind CSS website for beginners to practice English.

Tarragon Tarragon
Product landing page for fresh fruits built with semantic HTML and responsive CSS.

- Clean, responsive layout highlighting product photography.

PheroTube PheroTube
JavaScript-based video content UI simulating YouTube structure.

- Includes dynamic loading, search, and filtering logic.
